

We honour the legacy of Ted Riback, community builder, philanthropist and

a founding member of The Calgary Foundation.

Looking back on the journey of the Foundation, Ted once said, "The Calgary

Foundation was the spirit of several people, fantastic citizens who wanted to create a better future for all Calgarians."

It's amazing to think how one idea, and 20 founding members, can transform a city.

The initial Fund of \$100,000 has now grown to an asset base of \$335 million. Since 1955, we have granted more than \$292 million to over 1400 charities.

Through its evolution, The Calgary Foundation has stayed true to its vision – to build a strong, resilient community in which to live, work, play and grow.

With this vision in mind, we continue to build our community leadership role. This past year we led feasibility studies for Social Enterprise activity in Calgary, we convened citizens in community dialogue sessions, and identified our city's strengths, weaknesses and priorities in Calgary's Vital Signs and Youth Vital Signs Reports.

Over the years, we succeeded through booms and busts with tactical investment strategies. In 2010, our primary endowment portfolio returned 26.6%.

The Calgary Foundation continues to work to meet donors' needs by offering reliable service and gift advice, extensive knowledge of the nonprofit community and opportunities to get involved.

As we move well into the 21<sup>st</sup> century, we have simplified the act of giving through DonorCentral, an online program allowing Fund holders to view their Fund balance and make grant recommendations.

Lastly, the Foundation bids farewell to Board Chair Don Cormack, who contributed his skills for the past nine years. Don will continue his involvement by serving on the Audit and Governance Committees. We welcome new Board Members Robert Gibson and Walter Hossli.

Alison T. Love Eva Friesen
Chair, Board of Directors President & CEO

To all Friends of the Foundation, we thank you and are truly inspired by your commitment to community.

# ANNUAL REPORT 2009–2010

# **Year End Statistics**

- \$30 million received in new aifts
- Asset base of \$335 million
- \$29 million granted to

# **RECOGNIZING OUR DONORS AND GRANTEES**

The Calgary Foundation manages over 1000 Funds to realize the vision and commitment of donors to all sectors of our community.

Funds at The Calgary Foundation are established in a broad range of categories: Donor Advised, Donor Designated, Flow Through, Community, Field of Interest, Managed, Student Awards, Charitable Organization and Memorial Funds.

The Calgary Foundation believes in the expertise and creativity of the organizations we support. These partnerships build a strong and sustainable charitable sector that serves to support the Calgary and area community.

# **COLLABORATIVE PHILANTHROPY**

Partnering with donors to achieve greater impact in grantmaking

**Donor Advised** and **Donor Designated** Funds are established for donors who wish to play a role in recommending charitable organizations to receive grants.

A *Donor Advised Fund* is established by a donor who annually recommends charitable organizations to receive grants. A *Designated Fund* is established by a donor to support specific charitable organizations in perpetuity.

# Financial Statements · Year ended March 31, 2010

# Auditors' Report

To the Directors of The Calgary Foundation

We have audited the statement of financial position of The Calgary Foundation as at March 31, 2010, the statements of operations and changes in Foundation funds and cash flows fo the year then ended. These financial statements are the responsibility of the Foundation's management. Our responsibility is to express an opinion on these financial statements based on our audit

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Foundation as at March 31, 2010 and the results of its operations and cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

#### **Description of the Foundation**

The Calgary Foundation (the "Foundation") was incorporated in 1955 by The Calgary Foundation Act of the Legislativi Assembly of Alberta. The Foundation is a registered charity classified as a public foundation under the Income Tax Act (Canada) and accordingly is exempt from income taxes and can issue donation receipts for income tax purposes.

#### Foundation funds

Community & Field of Interest • These are endowment funds from which grants are directed to new and emerging need of the community at the discretion of the Foundation. Field of interest fund grants are restricted to a charitable area, population or region at the time the fund is established

Donor Advised & Designated • Donor advised funds are endowment funds from which grants are directed to charitable organizations with the advice of donors. Designated funds are endowment funds from which grants are directed to charitable organizations designated at the time the fund is established.

Flow-through. These are funds from which grants are directed to charitable organizations with the advice of donor. These funds are not maintained in perpetuity.

#### Managed funds

These are funds owned by other charitable organizations and pooled with Foundation assets for investment purpose

#### Preservation of purchasing power

To support the policy of preserving the purchasing power of the permanent endowment funds, the Foundation limit

#### 1. Significant accounting policies

(a) New accounting and reporting changes: In 2008, the CICA issued three new accounting standards which became effective for the Foundation as of April 1, 2009:

Changes to Handbook Section 3862 – "Financial Instruments – Disclosures" establish a three-tier hierarchy as a framework for disclosing fair value based on inputs used to value the Foundation's investments. The hierarchy of inputs is summarized as follows:

- Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either
  directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3 inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Changes in valuation methods may result in transfers into or out of an investment's assigned level.

Changes to Section 4400 – "Financial statement presentation by not-for-profit organizations" introduces the concept of reporting revenue gross as a principal vs. net as an agent, and no longer permits the grouping of cash flows from investing and financing activities on the statement of cash flows.

Handbook Section 4470 – "Disclosure of allocated expenses by not-for-profit organizations" requires that the policies for allocations of general support and fundraising costs to other functions be disclosed.

None of these required reporting changes made a material impact on the expenses or performance of the

(b) Financial instruments: All financial instruments must be initially recognized at fair value on the balance sheet date as determined based on the Foundation's assessment of available market information. The Foundation has classified each financial instrument into the following categories: held for trading financial assets and liabilities, loans or receivables, held to maturity investments, available for sale financial assets, and other financial liabilities.

Unrealized gains and losses on held-for-trading financial instruments are recognized in earnings. Gains and losses on available for sale financial assets are recognized in net assets and transferred to earnings when the asset is derecognized. The other categories of financial instruments are recognized at amortized cost using the effective interest rate method.

There are no financial assets on the balance sheet designated as available-for-sale or held-to-maturity. Cash and cash equivalents and investments are classified as held-for-trading. All other financial assets are classified as loans or receivables and are accounted for on an amortized cost basis.

All financial liabilities are classified as other financial liabilities and are accounted for on an amortized cost basis. Transaction costs are recorded in the statement of operations and changes in Foundation funds.

- (c) Foreign currency translation: Investments denominated in foreign currencies are translated to Canadian dollars a the exchange rate in effect on the date of the statement of financial position. Investment income denominated in foreign currencies is translated to Canadian dollars at the exchange rate in effect when realized.
- (d) Revenue recognition: Interest on bonds and short-term notes are recorded on an accrual basis. Dividends that have been declared are recorded as income on the date of record set for the dividend. Realized and unrealized capital gains and losses are recorded in the statement of operations when earned.
- (e) Contributions: The Foundation follows the restricted fund method of accounting for endowment and flowthrough contributions. Contributions are recognized when the amount can be reasonably estimated and collection is assured. Flow-through contributions, not distributed in the year of receipt, are recorded as a liabilit until the grants are made.
- (f) Administrative assets: The Foundation capitalizes and amortizes administrative assets. The assets are amortize over their useful lives of 3 to 5 years using the straight-line method of amortization.
- (g) Cash and cash equivalents: Cash and cash equivalents comprise cash on hand and temporary investments with a maturity date of three months or less.
- h) Investments: Investments are recognized in the statement of financial position at fair value as established by the closing bid price on a recognized public stock exchange and as determined based on the Foundation's assessment of available market information.
- (i) Controlled organizations: The Foundation is the beneficial owner of all of the shares of certain other registered charities which were created as a result of bequests to the Foundation. The Foundation has the ability to appoint the majority of these organizations' boards of directors. The accounts of these controlled organization have not been consolidated with the accounts of the Foundation. Instead, the Foundation discloses financial information about these controlled organizations as specified in the Canadian Institute of Chartered Accountants ("CICA") Handbook (note 9). The controlled organizations follow the deferral method of accounting for contributions.
- (j) Use of estimates: The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. By their nature, these estimates are subject to measurement uncertainty. The effect of changes in such estimates on the financial statements in future periods could be significant. Accounts specifically affected by estimates in these financial statements are the valuation of investments and the recoverability and useful life of administrative assets.
- k) Future accounting and reporting changes: In February 2008, the CICA Accounting Standards Board ("ACSB") confirmed that the changeover to International Financial Reporting Standards ("IFRS") from Canadian GAAP wi be required for publicly accountable entities effective for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. Non-publicly accountable enterprises will not be required to adopt IFRS. Instead, the CICA has developed a new GAAP framework for private enterprises. The accounting standards for private enterprises were issued December 15, 2009 and libe effective for years starting on or

Standards for Not-for-Profit Organizations". Not-for-profit organizations in the private sector can choose to apply IFRS or the proposed Part III of the CICA Handbook. Initially, Part III will comprise the existing 4400 series of standards for not-for-profit organizations, the additional standards and amendment proposal, and the standards included in Private Enterprise GAAP to the extent that they would apply to not-for-profit organizations.

The AcSB notes that the standards themselves are not substantially changing and the options proposed in the Exposure Draft are not likely to result in a significant change in many not-for-profit organizations. The AcSB expects that the final standards will be issued late in 2010 and would be applicable to fiscal years beginning on or after January 1, 2012 with earlier application permitted.

#### 2. Assets by fund

#### 3. Investments

#### 1 Other assets

The Foundation is the beneficiary named under whole life and term life insurance policies as follows

The cash surrender value is recorded as an asset. As the realizable amount in excess of the cash surrender value is not certain, the Foundation will record the benefits when the proceeds are cetain.

### 5 Managed funds

### 6. Foundation fund

# Management Discussion & Analysis · Year ended March 31, 2010

Management's discussion and analysis ("MD&A") is provided to enable a reader to assess our financial condition and results of operations for the fiscal year ended March 31, 2010, compared to the preceding year. This MD&A should be read in conjunction with our audited financial statements and related notes dated June 7, 2010. All amounts are based on financial statements prepared in accordance with Canadian generally accepted accounting principles (GAAP) except portfolio returns which are based on performance reporting methodology. The Calgary Foundation ("the Foundation") operates in accordance with The Calgary Foundation Act (Alberta, 1955) and bylaws and within the regulatory framework of the Income Tax Act (Canada), the Canada Revenue Agency ("CRA") guidelines and the Charitable Fund-raising Act and Regulations (Alberta). The Foundation has adopted Volunteer Canada's Code for Volunteer Involvement and Community Foundations of Canada's ("CFC") criteria for membership

The Foundation promotes philanthropy, acts as a catalyst for community involvement, receives ar manages endowed gifts, and grants to charitable organizations.

Forward-looking statements

This report contains forward-looking statements about certain matters that are by their nature subject to many risks and uncertainties, which may cause actual results to differ materially from the statements made herein. Forward-looking statements include, but are not limited to, objectives, strategies, initiatives, and the outlook for the Foundation. Risks and uncertainties include, but are no limited to, changing markets, legislation, demographics and general economic factors or conditions, and other risks, known or unknown.

#### **Business Environment**

The Foundation's finances are impacted by the performance of both

The S&P/TSX Composite, S&P 500, DJIA and MSCI EAFE indices all experienced their lows of the last two years in March of 2009. During this two year period, the Foundation has had approximately 65% of its primary endowment portfolio invested in the equity markets represented by these indices. Since March 2009, global equity markets have rebounded significantly but are still short of the levels just prior to the September 2008.

The Foundation's long term perspective, discipline and rigour in establishing investment objectives, determining asset allocation and selecting investment managers has paid dividends. The return of the primary endowment portfolio over the last two years has been greater than both the benchmark weighted indices and the median return of a peer group of balanced funds. The market losses incurred in fiscal 2009 were more than fully recovered through capital gains and investment income in fiscal 2010.

The recession, although unevenly impacting Canadian regions, appears to have not been as deep and protracted as contemplated early in 2009

As 84% of financial contributions to the Foundation over the last five years have been from citizens of Calgary and area, the economic environment in Calgary is critical to future gifts and demand for the services provided by the charitable sector supported by the Foundation. Thus the impact on the economy of the region of prices for commodities, cost of capital and demand for exports have particular bearing on the economic well being of current and future donors and the level of need in the community. It is anticipated that the not-for-profit sector will experience the brunt of the recession in 2010, as governments cut back on funding in their efforts to address the deficits resulting from the stimulus packages, and corporations keep tight hold of spending to ensure financial stability is returned. It is anticipated that these stimulus packages will result in inflationary pressures that will lead to increases in short term interest rates. The impact on households, which, on average, appear to have historically high debt levels, may further increase demands on charitable organizations to provide services or manage with lower revenues.

Over the long term, the amount of financial assistance that the Foundation provides to charitable organizations is greatly dependent on charitable contributions and the real growth of the endowment funds from investments in the capital markets. The performance of these markets impacts the financial support to charitable organizations.

A business environment that fosters entrepreneurs and supports their business success is critical to the continued growth of assets through contributions. Strong employment that fosters consumer confidence is crucial to the financial support provided to the Foundation. A community that is open and receptive to philanthropy is necessary for the successful implementation of our strategy.

The tax and regulatory environment also impacts the Foundation. The reduced (to zero) inclusion rate for capital gains arising from gifts of publicly-listed securities and the Alberta tax credit of 50% for charitable donations over \$200 in a calendar year will continue to affect giving levels in a positive manner. The federal government's removal of the advantage of giving publicly-listed securities to public foundations versus private foundations may impact the Foundation negatively as the change levels the playing field between the two types of foundations.

The March 4, 2010 federal budget proposed, amongst other amendments to the charitable regulatory regime, the elimination of the 80% disbursement quota requirement on gifts to the Foundation that are not endowed gifts. While the implications of the changes are being evaluated, it is expected that an investment vehicle for gifts with a disbursement time horizon between the currently established "flow-through" gifts (approximately 2 years) and endowed gifts (greater than ten years) will be required to meet donor objectives.

### Strategic Direction

**Proactive Community Leadership** 

Knowledge of community needs and the work of charitable organizations across all sectors, derived from 55 years of experience, has positioned the Foundation to take a proactive leadership role in community building. Given the recent recession and the needs of the charitable sector for support, proactive initiatives of the Foundation to strengthen the sector are more important now than ever before. Donors and charitable organizations have come to expect this from the Foundation. Through partnerships with others, and citizen engagement, the Foundation will continue to address community issues and build a strong community for the benefit of all. This is the

Calgary's Vital Signs®

Calgary's Vital Signs® is an annual check-up that measures the vitality of Calgary, identifies significant trends, and assigns grades on areas critical to the quality of life in Calgary. Building on the work of the first three years of producing the Vital Signs® report, the Foundation launched Vital Conversations this year to further engage citizens at all levels in issues of concern in their communities.

Youth Vital Signs®

Presented in partnership with Youth Central (formerly Child and Youth Friendly Calgary), Youth Vital Signs® is a youth driven project that combines research and youth opinions in a report that will inform local government, youth funders and youth programs. This is the Foundation's opportunity to introduce the next generation to philanthropy and caring about their city.

Forever Funds Initiative

The Speaker Series is a key component of the Forever Funds initiative established to support emerging community needs in five areas identified as requiring increased funding and leadership (seniors, arts and heritage, diversity and inclusion, environment, mental health). Exploring and developing signature projects in the Forever Funds priority areas are a key element. Advancing an Arts Incubator is part of this work.

Social Enterprise Initiative

Work this year will be to follow-up on the plan presented in the repor *Accelerating Calgary Social Enterprise Growth* completed last year to develop social enterprise initiatives for Calgary. Social enterprise combines the best of business and the charitable sector to create a better product than either sector can produce on their own. In a social enterprise, business practices and revenue generating products and services provide an income stream for the not-for-profit in the context of achieving the social mission of the organization, for example, the employment of marginalized groups. The Foundation is assuming a leadership role to accelerate social enterprise growth that will strengthen the not-for-profit sector in Calgary and provide a viable investment avenue for socially concerned investors.

Sector Capacity Building Initiatives

explore new solutions to capacity issues. Research, facilitation, and training are all important elements. Work this year will follow-up on the Building a New Road forum held in December 2009, as well as continuing the Communications/Recognition project wherein the Foundation hires communications consultants for a modest sum to work directly with charities to improve their strategic communications, branding and positioning in the community. Our objective is to research and implement new, similar low-cost/high impact means to strengthen Calgary's charitable sector.

Strategic grant making for greater impact is a focus of the Foundation. The policy is to grant a percentage of the market value of the endowment. The Board reviews this disbursement percentage annually. It was determined to disburse 5% again in the coming year. This is possible because in years of higher returns, the Foundation maintained grants at 5%. It is the Foundation's intent to be an ongoing source of support in unstable times at a level consistent with its goals. Support to the sector has never been more critical.

#### **Engaging Donors**

Getting more intimate with causes they care about is an increasing interest among many donors. The Foundation is committed to engaging donors with community needs, to foster stronger relationships and add greater meaning to their philanthropy.

Increasingly donors are getting involved in the Foundation's granting advisory committees and agency site visits. More donors signed up of Donor Central® as a convenient way to interact electronically with the Foundation regarding the Funds that they have established. Many donor engagement surveys were completed. These one on one conversations determined that donors are largely very satisfied with the services of the Foundation.

#### **Grow the Endowment**

Growing the endowment for the benefit of the community continue to be the overarching purpose of the Foundation. How the Foundation grows the endowment differentiates it in the charitable sector. It does not mount fundraising campaigns or events. Rather it seeks to inspire giving through results of its work in the community and forging relationships between donors and the causes they care about.

Well known for its responsiveness to donors, the Foundation will continue to expand its capacity to accept complex gifts. A key focus is to customize donor service and focus on meeting the donor's philanthropic goals rather than servicing the transaction of a donation. Interest in family philanthropy is expected to increase as wealth transfers to the next generation. There is an opportunity for the Foundation to be of service in family philanthropy.

Building relationships with the Professional Advisor Community is a key strategy for the Foundation to reach new audiences and promote philanthropy. The Professional Advisor (PA) program has been transformed to take a more personalized 'relationship building' approach. It is estimated that currently the Foundation penetrates approximately 25% of the PA market. There is opportunity to do more. It is the Foundation's strategy to assist PAs to help their donors achieve their philanthropic goals.

The primary endowment fund is managed to achieve an average annual rate of return that is adequate to retain the purchasing power of a donation, provide grants to recognized charitable organizations and cover the costs of administering the Foundation. The current annual real rate of return objective (i.e. after inflation) is 5%. The endowment fund is invested for the long term and has low and predictable liquidity requirements. As a result, we can invest in multiple asset classes, do not have to sell assets at inopportune times and potentially can accourse assets at attractive valuations.

Investment of the endowment has been a major focus area as we strive to achieve the optimum investment return/risk balance, and achieve portfolio results that build donor confidence. The asset mix review has occupied substantial time at the Investment Committee meetings and at the Board table. Considerable progress was made in transitioning to the new asset mix this past year. The Foundation will stay the course with its investment strategy with confidence that it has been crafted to protect against inevitable market downturns. This is work that was done in advance of the recession, and has proven effective in the recovery of the past year.

### **Assets**

The Foundation's assets under administration as at March 31, 2010 totalled \$334.5 million ('m') as compared to \$274.1 m at March 31 2009. The March 31, 2010 figure represents a 22% increase from the prior year end. This increase is explained by the increase to the value of securities of \$45.4 m (2009 – decrease of \$64.9) for foundation funds and \$2.0 m (2009 – decrease of \$3.1 m) for managed funds. These gains were augmented by contributions of \$29.6 m (2009 – \$25.2 m) and realized investment income of \$19.1 m (2009 – \$14.6 m) for foundation funds and \$0.7 m for managed funds (2009 – \$0.6 m). Grants and service costs were \$32.4 m (2009 – \$26.4 m) for foundation funds, including \$7.3 m (2009 – \$8.5 m) of flow-through grants.

Contributions of non-cash gifts of \$12.4 m were received as compared to \$5.6 m in the previous year. Substantially all of these non-cash gifts were gifts of publicly-listed securities which were converted to cash and reinvested. This marked increase in gifts of securities as compared to the previous year was a result of the significant capital market upswing that began in April 2009. Gifts of shares have made up nearly half of the gifts received in the past few years and are gifted primarily in November and December.

Bequests make up approximately 1/3 of the gifts to the Foundation. There is a trend towards an increase in bequests related to the life cycle of the Foundation and the changing demographics of the city. Over the past 55 years, the relationships that have been established between donors, their professional advisors and the Foundation continue to result in the inclusion of legacy gifts in estate planning.

Expenses incurred to operate the Foundation are allocated to the funds. The allocation process is described below:

- (i) A percentage of the market value of the individual endowment funds is allocated to service costs on a monthly basis by way of a tiered schedule. The amount of this allocation totalled \$3.1 m in 2010 and \$3.0 m in 2009. The allocations were significantly higher in the last six months of the fiscal year than the first half as the endowment funds gained market value with the positive returns following the market lows of March 2009.
- (II) Interest earned on the money market instruments, representing flow-through contributions totalled \$30 k (2009 \$0.3 m) and represented 1% of the revenue available to satisfy service costs in the year (9% in fiscal 2009). The interest revenue continued to be significantly reduced from prior years as interest rates continued at historic lows.
- (iii) Managed funds fees of \$130 k (\$155 k in 2009) represented 4% of service costs for 2010, unchanged from 2009. The trend for the contribution of managed fund fees to fund service costs has been decreasing as the balance of funds owned by other charitable organizations and managed by the Foundation has decreased. As the managed funds are invested in the same way as the individual endowment funds, the market impacted this source of revenue in the same manner as it above.

### Expenditures

During the twelve month period, grants from endowment funds to charitable organizations totalled \$21.5 m, compared with \$13.9 m during the same period in 2008-09. Grants of \$2.2 m (\$2.1 m in the prior period) were made from Community and Field-of-Interest funds. Included in grants from these funds were grants to charitable organizations that applied for funding from the following programs at the Foundation:

- Community Grants support initiatives that respond to emerging community issues and evolving priorities – The program continued to increase the number of grants awarded to charities to explore or implement shared service and shared space options. A major proactive granting commitment to human resources development in Calgary's charitable sector continued through a partnership with three other funders.
- Neighbour Grants help create and strengthen the ordinary bonds of neighbourliness This year 21 grants supported local music, multicultural and art projects that built a sense of belonging and sharing; community garden, naturalization and playground projects that enhanced people's enjoyment of their neighbourhoods; plus traffic safety, neighbourhood clean-up and community planning projects that allowed local residents to directly engage in the well-being of their communities.
- Small Grants support organizations in taking advantage of unique opportunities to advance their work – The grants stream supported the piloting of a six-week full time artist residency project for a social service agency's clients using a group of professional and emerging theatre artists.

- Organization Development & Transformation Grants support
  organizations in times of transition A relatively new granting
  stream, the program awarded twelve grants in 2010, compared to
  ten grants in 2009. This granting stream is continuous intake with
  quick-turnaround decisions and focuses on helping registered
  charities to transform the ways in which their organizations operate
  with a focus on sustaining the long-term impact of their work,
  often through partnerships with other charities.
- Stepping Stones Grants encourage active citizenship by helping
  residents undertake small creative projects, neighbourly first steps,
  that benefit their local community Youth in a Calgary community
  introduced their young neighbours to the new family activity
  centre through planning, interior design and gardening activities.
  The parents also got to know one another as neighbours.

Over 60 volunteers are actively engaged in reviewing proposals to the Community and Neighbour grants programs – a key strategy in our grantmaking.

Distributions to charitable organizations of \$19.3 and \$11.8 m were made in the twelve month periods ended March 31, 2010 and 2009 respectively from Donor Advised and Designated funds.

Flow-through grants were \$7.3 m this year, as compared to \$8.5 m for the fiscal year ended March 31, 2009. Flow-through grants are grants of capital arising from gifts that are not endowed. The timing of these flow-through grants is dependent on the timing of the donors' advice, the status of the recipient project, CRA's requirement to spend a minimum amount on charitable activities in a particular fiscal year ("disbursement quota") and the Foundation's disbursement quota accumulated from the five prior fiscal years.

#### Outlook

Although the near- to mid-term is expected to be difficult for government funded programs as governments grapple with deficits, thus increasing demand on many charitable organizations and reducing financial support for those same organizations, the Foundation assumes that its operations in the 2011 fiscal year will be materially consistent with those in 2010 except for the impact of those factors discussed in this outlook section.

#### Donor:

The impact on donors' ability to financially support their favoured charitable causes will be dependent, in part, on the impact of increased interest rates on household finances. The performance of the stock markets will also impact the level of giving of securities, which have made up a significant percentage by dollar value of gifts over the past number of years. Growth of the asset size of the Foundation through bequests is anticipated due to the increase in the number of bequests received appually.

Contributions to the Foundation have averaged \$35 m over the last decade and this trend is expected to continue. The Foundation has been named the residual beneficiary of a significant sized estate that would increase the assets of the Foundation by a material amount. We expect the distribution of this estate to occur over 3 – 5 years.

#### Grants

The Foundation will continue to grant 5% of the March 31, 2010 market value of the endowment funds. This rate, although consistent with the prior year, will result in greater funding dollars to charitable organizations in absolute terms over the next twelve months as compared to the last twelve because of the positive impact of the returns in the capital markets on the market values of the funds.

#### **Primary Endowment Portfolio**

The implementation of the final piece of the restructured asset mix – real estate – will see its first investment in Q2 of calendar 2010 bu a full 5% weighting is expected to take 12 – 18 months. Additional investment managers with smaller-sized mandates, a reduction to indexed investments and increased oversight demands will add to the cost of the new structure. Although greater than normal volatility in the capital markets is anticipated, the Foundation expects that the changes to the asset mix will result in risk-adjusted returns that are better, after fees, than those that would have been produced by the previous portfolio.

The service costs incurred to execute the strategy and obtain results in the key areas totalled \$3.7 m (\$4.0 m in 2009). Three quarters of these costs are human resource costs (\$1.5 m - 2010, \$1.6 m - 2009) and investment management costs (\$1.2 m - 2010, \$1.2 m - 2009)

Two specific items of interest included in service costs are:

The costs incurred to envision, plan, create, publish and evaluate the Foundation's third Vital Signs® report card – a report card where Calgarians have graded the city or our overall quality of life, providing a snapshot of their views on our city's wellness and liveability (2010 – \$76 k 2009 – \$147 k).

Membership fees paid to CFC to support community foundations across Canada to uphold the Foundation's leadership in connecting donors to community needs and opportunities. The membership is needed to access regional and national networks to enable synergies from partnerships (2010 – \$76 k. 2009 – \$76 k).

Service costs as a percentage of average asset value has been commonly used by community foundations as a benchmark of efficiency. Service costs are impacted by the projects undertaken to support both operations and initiatives in the community. Strategic planning time horizons and longer term initiatives combined with uneven timing of contributions and short term vagaries of the capital markets result in wide dispersion of the ratio around the mean of 1.19% over the past decade.
