

In April 2020, Calgary Foundation established the Pandemic Recovery Program to bridge gaps and meet critical needs to support all sectors serving our community.

Through a phased funding strategy, Calgary Foundation provided grants to charities totaling over \$14 million dollars. We partnered with the Government of Canada and Community Foundations of Canada to distributed funds totaling \$3.6 million through the Emergency Community Support Fund.

With local partners like the United Way, Rosza Foundation, the City of Calgary and others we contributed another \$1.5 million towards front-line agencies, resilient arts organizations and more. In total more than 450 organizations received funding through one of these grant programs.
