

DARYL K. SEAMAN CANADIAN HOCKEY FUND

This sampling of past grant recipients is to provide context for prospective applicants of the scope, scale & range of initiatives that have been supported.

Grantee	Project Name	Project Description	Total Grant
Ability New Brunswick Inc./Capacité Nouveau-Brunswick Inc.	Keeping Active in Para Sport and Recreation During COVID-19 in New Brunswick	This project aims to bring physical and mental health benefits through access to parallel sport and recreation for individuals with a physical disability by offering free access to adapted equipment through our provincial equipment loan service and accessibility reviews throughout New Brunswick.	\$30,000.
Athol Murray College of Notre Dame, SK	Maier Fitness and Acceleration Centre Revitalization 2021-2023	The goal of this project is to upgrade both the facility and equipment in the Maier Fitness & Acceleration Centre to ensure it meets the needs of modern athletic training methods and programs for those within our school and community.	\$26,000.
Calgary Olympic Development Association (WinSport)	Adapting to the Pandemic	WinSport desires to purchase a permanent outdoor tent to create an additional safe space to accommodate the community WinSport serves. This includes capabilities for physical distancing when WinSport patrons require space for program check-in, ticket or rental purchase, waiver completion etc. In Winter, this gives parents of young children a safe place, out of the elements, to be in close proximity while their children are in mountain-based lessons. In Summer, this allows WinSport to operate multi-sport camps.	\$75,000.
Fast and Female Supporting Women in Sport Foundation, AB	Youth Council For the Girls By the Girls	The purpose of this three-year project is to co-create and pilot new Fast and Female content and methods of developing connections with role models that embodies a 'for the girls, by the girls' spirit for self-identified girls in Canada ages 15-17.	\$30,000.

Hockey Canada Foundation	Hockey Canada Foundation Assist Fund	In response to COVID-19 devastating the return to hockey, the Hockey Canada Foundation (HCF) has established an Assist Fund and granting program for Canadian youth and families struggling financially to ensure they receive assistance through subsidies for hockey registration because HCF understands the vital role of hockey in our country and believes that anyone who wants to play hockey should be able to.	\$75,000.
KidSport Canada - Nova Scotia Chapter	Sport Access for New Canadians	Sport Access for New Canadians will work to provide funding grants for new Canadian families to ensure their children have the opportunity to be introduced to sport programs in and around their local communities.	\$21,000.
KidSport Canada - Victoria Chapter	So ALL Kids Can Play season-of-sport registration grants	After the sport shutdown caused by COVID-19 in Spring 2020 and through much of Summer 2020, we have seen a sharp rise in demand for our support by local families in financial need. As the largest KidSport chapter in British Columbia (and the third largest across the country), more families came to us for support to enable their kids' return to organized sport in Sept 2020 than in any single month in the last two years. We know that the normalcy sport can provide, along with life lessons related to leadership, resilience and work ethic; and the mental, physical and social health benefits of sport are more important now than ever. The need among local families has ever been greater.	\$25,000.
Mount Royal University Foundation, AB	Childrens Adaptive Physical Activity	The purpose of the Children's Adaptive Physical Activity (CAPA) project is to include more children with disabilities in sports – and “include” means in programs specifically geared for their needs, to help them develop strengths and join in, with the goal of leading to lifelong participation and enhanced well-being.	\$30,000.

Parks Foundation Calgary	Bridgeland Sport Court	The goal of this project is to provide the community of Bridgeland-Riverside access to free recreational opportunities that not only encourage community gathering but support physical activity. We intend to build a sport court in the field adjacent to the community association building. The community has 25% of its residents living in affordable housing and over a quarter are new immigrants. These families often lack the financial means to access recreational programming. A community sport court will provide these residents with access to sport and allow residents and youth to build community together. The Bridgeland Sport Court will welcome members of the community, especially teens and young adults who have few spaces dedicated to them.	\$50,000.
Parks Foundation Calgary	Montgomery Bike Park Pump Track	The Montgomery Community Association wants to build a free asphalt pump track that will become a community hub and the first such facility in the NW quadrant of Calgary. This will be a place where residents in Calgary's NW will be active, healthy and build confidence in their abilities on and off the track.	\$35,000.
Spirit North	Movement Matters- Supporting sport for children and youth in Tsuut ina	The goal of this project is to address an increase in need for outdoor sport and recreation programs as a result of COVID-19. With this project, we endeavor to improve the physical health of students, advance academic outcomes, promote community health and wellness and address the adverse mental health effects of the pandemic through delivery of regular, outdoor land-based sport and activity programs for Indigenous children and youth, ages 8-14, in two schools located on the Tsuu'tina reserve, over two years.	\$50,000.
Sport Central Association, AB	Helmets For Kids In Need	We provide new hockey and bicycle helmets for the children of low-income families who come to us for equipment, enabling their safe participation. We strongly believe that all Canadian "kids" should have a pair of skates and a bicycle. We work hard to make this happen. We purchase/provide approximately 3500-4000 new helmets every year.	\$55,110.
Town of Niverville, MB	Hespeler Park Cross- Country Ski Trails Equipment	With the funding to purchase a UTV (Utility Terrain Vehicle) to pull a snow groomer, our goal is to create a sustainable recreational opportunity of cross-country ski trails, that are readily accessible to all residents and community members at no cost, while providing winter activities and programs to promote the health and well-being of our community.	\$10,000.

University of Alberta - Office of Advancement	The Steadward Centre Bears Para-Swimming Program	The Steadward Bears Para-Swimming Program is the only program in Alberta that is focused exclusively on providing para-swimming opportunities to children and youth (ages 10 and up) who experience physical, sensory, and/or developmental impairments while building capacity in para-swimming coaching by training and supporting 40 volunteers in each program session; with support from these qualified coaches and volunteers, participants receive individualized program plans as they choose from two program streams: development (focused on Participation Stage) or performance (focused on Development Stage).	\$60,000.
University of Alberta - Office of Advancement	UAlberta Engage North - Youth Internships with Three Northern Alberta First Nations	The goal of our program is to create and strengthen relationships with northern Indigenous Nations by supporting community-driven projects. Each year two interns live and work with each partner community over a four-month period. Since 2014, Dene Tha' and Beaver First Nations have requested Health & Wellness-Youth Recreation Interns, who can support the mental and physical health and wellness of community members, through the facilitation of sport and recreation.	\$50,000.
Vivo for Healthier Generations, AB	Inclusion Training	Provide mass, multi-organizational inclusive staff/volunteer/coach training to allow for community-based sport and recreation partners to become equipped with the resources to make amateur sport inclusive across Calgary, covering the entire pathway of sport opportunities (grassroots to high performance) with a focus on children who have a disability.	\$25,000.
Women's Para Hockey of Canada	National Female Para Hockey Mentorship Program	We will develop and enhance mentorship opportunities by pairing high-performance female para hockey players (members from the Women's National Para Hockey Team) with girls and women+ who are new to the sport or working on developing their skills. The program is for female para hockey players led by female para hockey players. Mentorship by female athletes with disabilities is key to this program's success and we will pair mentors with players from their own time zones and communities to enhance the possibility of in-person meetings and continued mentorship in the future.	\$25,000.
			\$672,110.
