ABOUT CALGARY FOUNDATION

Calgary Foundation (CF), established in 1955, facilitates collaborative philanthropy by making powerful connections between donors and community organizations for the long term benefit of Calgary and surrounding area.

To identify needs and address community issues, CF develops networks that transcend special interests, providing knowledgeable and effective grants in the areas of Arts & Heritage, Human Services, Education, Environment, Health and Neighbourhoods.

By applying our resources, expertise, and leadership, CF acts as a catalyst and convener, creating a meeting place that fosters partnerships to build a strong charitable sector that serves the needs of all its citizens.

By working with donors and their advisors, CF designs giving plans that achieve their desired charitable and financial goals, ensuring donors receive the maximum tax benefits from their gift and endowed funds receive professional investment management that seeks leading risk-adjusted rates of return.

What is a Community Foundation?

In the simplest terms, community foundations are charitable organizations dedicated to improving communities in specific geographical areas. Foundations do this by pooling the charitable gifts of donors to create endowment funds and using the investment income to make grants.

CF is a member of Community Foundations of Canada – the national membership organization for the 191 community foundations across Canada.

KATHARINE SARAH MELINDA 美玲 THOMAS ORPHAN DISEASES RESEARCH SCHOLARSHIP

Katharine Sarah Melinda 美玲 Thomas died at the age of 32 from complications during surgery. For the last two-thirds of her life she suffered from an orphan disease that was difficult to diagnose, impossible to cure and, at best, only partially treatable. This fund has been established in her name to try to help others suffering as she was from little-known diseases so that they too may live a full life.

This summer studentship helps train future leaders in orphan disease research at the Alberta Children's Hospital Research Institute at the University of Calgary. Research is directed to help find a cause and/or a cure/treatment for an orphan disease. The award is offered annually to summer students pursuing orphan disease research at the University of Calgary under the supervision of a full-time faculty member. The stipend is up to \$1000 per month to a maximum of \$4000 per student per year. Nomination awards are adjudicated by a subcommittee of the ACHRI Training Program Review Committee.
